

# P65

Discover the pleasure of performance

- Unique parallel movement
- Runs on low oil flow, 60–65% less than a traditional crane
- Easy to control, the crane tip moves in a straight line

# Crane P65

FTG Källefäll crane P65 provides a total reach up to 6.5 m and a 500 kg lifting capacity at the max reach.

Unique parallel movement that maintains the same lifting moment throughout the range. Only one cylinder is active for this movement.

Runs on low oil flow, 60–65% less than a traditional crane. This makes it possible to reduce the number of revolutions and improve fuel consumption and the environment.

Crane P65 comes standard with 3 ton rotator, FB190WF grapple, rotator link without pending brake, mechanical control, 4 cylinder slewing motor. The forest crane has a

lifting moment of 43 kNm (gross) and a slewing torque of 11 kNm. There are numerous valve packages and accessories to choose from. Crane designed for versatile work applications:

- Forest trailers
- Chippers
- Log splitters
- Attachment to the tractor

P65 combined with FTG Källefäll forest trailers offers high reliability and efficiency. Demand for maintenance is quite low for high-quality components and tested designs.

By combining our Swedish heritage with constant innovation based on the needs of customers, we design forest trailers and cranes that impress by their consistently pleasant performance.

FTG Källefäll forest trailers can pass through challenging terrains and are robustly built to withstand tough conditions in the forest. Trailers' capacity varies from 2,5 to 12 tones. Our trailers can be supplemented with telescopic cranes, ranging from 4,2 to 9,4 meters reach. Källefäll cranes are strong, fast, and easy to operate. We also offer a wide range of timber grapples and other accessories to meet different needs.
